

05-02-2019

Dear Suzy,

I would like to strongly support the initiative of maintaining Dansmakers Amsterdam as a space for vivid performance exploration and production.

For me, Dansmakers is an important place for sharing and reflecting on creative ideas and trends within the performance scene of Amsterdam. I find it to be a crucial meeting ground for like-minded makers and audience members who enjoy work that challenges conventions and looks at what is possible within given resources. I think Dansmakers is needed for the dance and performance community, for the community of Amsterdam Noord and also for the community of international artists and makers based in Amsterdam.

I hope Dansmakers will be able to continue their activities as before, for it greatly contributes to the development of the professional dance and performance scene in Amsterdam.

Kind regards,

Sandra Kramerova
